To whom it may concern,

I am the Director of Maintenance and Operations for the Rancho Santa Fe School District. I have been working with 24Hour Elevator for a year now and they have been great to work with. When Chris came out to survey our elevators and discuss service, he was very professional and willing to meet whatever needs we had. They were able to create a service plan that would fulfill our requirements and budget, with no "red tape". I appreciate the fact that if I call Chris, at any time, for any reason, he gets things handled in a timely manner. They have been here every single month, just as they promised servicing our elevators with no "extra" fees. I also appreciate the fact that they are a San Diego based company. Thanks 24Hour Elevator!
